The Wizard

Bat for Lashes

Doing the mess around Push me down into the ground Taste the hands that drink my bodyFight me in the dark Wrestle your bones over mine Into our moonless march come the wizardCome, the wizard comes The wizard comes The wizard comes The wizard comesWants to feel you shake and shooting He will be our leader Wants to feel you shake and shooting He will be our leaderTrembling midnight lands I travel with the wizard Drink his blood and he's our leaderBreath songs in my head Slow arrow flies, are burning And the trouble we possess While the sunshine goes on sleeping The sunshineWants to feel you shake and shooting He will be our leader Wants to feel you shake and shooting He will be our leaderWants to feel you shake and shooting He will be our leader Wants to feel you shake and shooting
