

Red Lipstick

[Rihanna](#)

Red lipstick, all on the paper
Let me take a hit while you sit and watch
Go head, talk shit, it's all on the paper
Let me grab my dick while you sit on top
Do you right here while the whole world's watching
All up in my mental, gotta get up in my physical
Don't know what you did
But you really got me feeling
That feeling tonight
All on you, K
Cause you really got me feeling
That feeling tonight
I want you babe
Got me going cray
Bout to let it go, let it go

Just show me where you want me baby
Can't fight the feeling
Cause you really got me feeling
That feeling tonight
Can't fight the feeling
Can't, can't, can't fight the feeling, yeah
(when I like, can't lie)
I just Can't fight the feeling
Can't, can't, can't fight the feeling, yeah
(Do whatever you like)
Can't fight the feeling
Can't, can't, can't fight the feeling, yeah
(you're gonna learn tonight)
Can't fight the feeling
Can't, can't, can't fight the feeling, yeah
