

Racing Tides (The Sweet Hurt Remix) - Bonus

Correatown

We were racing tides in the sand
You never lose
I fit a crown for your head
We played the roles we were given And I held my breath
Yeah, I held my breath
Oh oh [x2]
I held my breath I race the tides once you've gone
I never lose
I race the tides before dawn
And I never lose
I never lose You crossed a line in the sand
You crossed a line I had drawn for you
I crossed my lines in the sand
I crossed the words I had written I held my breath [x6] We were racing tides in the sand
We were racing tides in the sand
