

Just Around The Corner

[Martina McBride](#)

There's no good crash course
On how to win what you're fighting for
You find a little grace
When you lose your faith
And you set your sights once more On a slow down deep breath
And the strength to take another step
And keep walking baby
Keep on walking baby Just around the corner
The sun's a little warmer
The storm is blowing over
It's finally over
The weight that you've been holding
The faith that's been broken
Ain't broken any longer
And you'll be stronger
Just around the corner, corner
Just around the corner It's a white flag in the air
It's the hit your knees kind a prayer
It's a you don't know, whose lifting
But you hope it's someone, somewhere
It's a reaching out kind of friend
Over and over again
It's a God send
A God send Just around the corner
The sun's a little warmer
The storm is blowing over
It's finally over
The weight that you've been holding
The faith that's been broken
Ain't broken any longer
And you'll be stronger
Just around the corner, corner
Just around the corner Ohh, yeah, yeah
Ohh, yeah
Ohh, yeah A break in the clouds
Can't see it now
But it's out there
Hold your head up
One foot in front

Of the other Just around the corner
The sun's a little warmer
The storm is blowing over
It's finally over
The weight that you've been holding
The faith that's been broken
Ain't broken any longer
And you'll be stronger
Just around the corner, corner
Just around the corner, corner Just around the corner, corner
Just around the corner
