

Pumpkin Pie

Evan Taubenfeld

I was fine with just hanging out
I was living like a player in a West Coast town, yeah
I never thought that I would ever settle down
Always, one girl after the other Didn't wanna be your boyfriend
All I needed was your number
Lemme share a little bit of what I found
There were so many flavors I wanted to taste But then Jamie, I thought she was the one
But she played me just like 21
Then Katie, I couldn't get enough
She was just like pumpkin pie And then Katie she kinda had a thing with Stacy
And that was pretty fun
But lately I wanna go to sleep with the same girl
The same girl every night Some girls should come with a warning
And a dose of penicillin first thing in the morning
But last night that never really crossed my mind
Always one girl after the other I was hitting on your roommate
I was flirting with your mother
And now I guess I'm feeling
It was always like that time Like Jamie, I thought she was the one
But she played me just like 21
Then Katie, I couldn't get enough
She was just like pumpkin pie And then Katie she kinda had a thing with Stacy
And that was pretty fun
But lately I wanna go to sleep with the same girl I want the same girl every night
Who wants the same guy every night
In the same bed every night
Every single night I want the same girl every night
Who wants the same guy every night
What a perfect fucking life
Every single night So many flavors I wanted to taste
All those girls, well, how can I forget those names?
Like Jamie, I thought she was the one
But she played me just like 21 Then Katie, I couldn't get enough
She was just like pumpkin pie
But baby, you're the only one that can save me
I guess I'm in love
'Cause lately I wanna go to sleep with the same girl
The same girl every night
