

# Closer To Heaven

## Pet Shop Boys

Never been closer to heaven  
Never been further away  
Never been closer to heaven  
Never been further away  
Give me hope, give me all your love  
Tell me now, you're coming home tonight  
Have some faith in the love we share  
Is it fate? Does darkness end in light?  
Never been closer to heaven  
Never been further away  
Never been closer to heaven  
Never been further away  
Where'd you go? Did you lose your way?  
Tell me now, you're coming back to stay  
In my hopes paradise is real  
Horoscopes can't forecast how we'll feel  
Never been closer to heaven  
Never been further away  
Never been closer to heaven  
Never been further away  
Give me hope, give me hope  
Never been closer to heaven  
Never been further away  
Never been closer to heaven  
Never been further away  
Give me hope, give me hope
