Tough Goodbye

Gary Allan

That was a tough goodbye
And what tore me down was watching her try not to cry
She asked me to stay and for a minute I thought I might
Yeah, that was a tough goodbyeThat was a long night
Full of looking back and wondering what it might have been like
Must have drove her memory across at least ten straight lines
Yeah, that was a long, long night
AndChorus:
I'm not quite ready yet to settle down
Or even let someone get ahold of me
Cause I'm not done being free
I still have a few roads to travel down and Lord knows
Ooh I got way too close that time
Yeah, that was a tough goodbyeThat was a hurting kind
Not the so long, after awhile, see ya soon some other time
Where I just walk away and everybody's fine
No, that was a hurting kindChorusAnd I know I won't find anyone better
And I can't keep running forever
SeeChorusThat was a tough goodbyeThat was a tough goodbye and what tore me down was watching her try not to cry
