Deep Inside

Fishbone

Rich ass, high klass Don't bother me and I won't realize your crime Two faced, you're out of place You can't rock out because you ain't the kind Well, if you were on the other side of the fence Well, maybe you'd understand I may freak you out with my raw look 'Cause I just got the feelin' Man Brain washed, you're lost Your blindness can't be helped anyway Your cash, my clash Makes me able to say, makes me able to say You got the prestige status, you've got the majority mass Plus you've got a blender by General Motors And a Tonka Toy dump truck up your ass You'll never look the way I feel You'll never feel the look in my eyes I feel the look in my eyes 'Cause I've got the feelin' swimming in my bones And it's takin' over deep inside, it's takin' over deep inside
