

Safe Space

Zeroes

Altercations in your name
Will you tolerate the crooked gaze
Temptation... will you stray
Take time to find fine lines in shades of day(Safe space)
Where you can hide out
(Safe space)
Away from it all
(Same face)
Behind the mirror
(Safe place)
To hide from the stormConfrontation face to face
Will you tolerate words of shame
Silence broken
Bombs fly and black eyes dilate
With pink blood and red rage
Rebuild with the same stones you threw at foes
New friends made(Safe space)
Where you can hide out
(Safe space)
Away from it all
(Same face)
Behind the mirror
(Safe place)
Away from the stormWhether you follow or lead you follow
And when you lead alone you bleed(Safe space)
Where you can hide away
(Safe space)
Away from it all
(Same face)
Searching the mirror
(Safe place)
Away from the stormWhether I follow or lead I follow
And when I lead alone I bleed
