

# Acropolis

## ELLEGARDEN

Is it something I can see  
Is it something I can touch  
Is it something I can feelIs it something I can hear  
Is it something I can smell  
Is it something I can trust  
YeahBefore the surface dries out  
Before the palace burns down  
Before your world is overwhelmed  
Before the surface dries out  
Before the palace burns down  
Before your world is overwhelmedIs it something I can do  
Is it something I can learn  
Is it something I can findIs it something I can fix  
Is it something I can solve  
Is it something I can proveBefore the surface dries out  
Before the palace burns down  
Before your world is overwhelmed  
Before the surface dries out  
Before the palace burns down  
Before your world is overwhelmedYou scream out  
I hear that  
Our time is running out so fast  
Wings burning  
I'm fallin'  
Our time is running out so fastIs it something I can see  
Is it something I can touch  
Is it something I can feelIs it something I can hear  
Is it something I can smell  
Is it something I can trust  
YeahBefore the surface dries out  
Before the palace burns down  
Before your world is overwhelmed  
Before the surface dries out  
Before the palace burns down  
Before your world is overwhelmedYou scream out  
I hear that  
Our time is running out so fast  
Wings burning  
I'm fallin'

Our time is running out so fast
