

Rollin

OPM

[Chorus]

We just rollin'

We just strollin'

We just groovin' to the next destination

Nowhere to go nowhere to be

Mirror mirror mirror on my car

Tell me who be the biggest of them all

Well ill be you and you be the BM

Let the fools make their decisions

No they take it with me

I don't need no sixty four cause they be played out

Give me a five iron and I'm gonna switch baby laid out

We just rollin' we just strollin'

We just groovin' to the next destination

Nowhere to go nowhere to be

Just dippin' through the streets of Cali

We just rollin' we just strollin'

We just running to the next destination

Nowhere to go nowhere to be

Just an everyday thing for OPM and me

I got the side to side

Yo the front to back

Fifteen's in the trunk to let em know where I'm at

Some call me fat some call me fatty

But they all know I'm a true baller rollin' in this caddy

Spinnin' only true spokes about to play a big game

Pay dealer with a pocket full of see notes

[Chorus:Repeat x2]

Top down and listen to the sound

What they gonna say when we mash up the town

Come on girls just a little bit closer

Remember me from your OPM poster

I seen the stars in your eyes

Yea there's a party baby down to ride

So come on girls 'cause your invited

All the nights (?) will be provided
We just rollin' we just strollin'
We just groovin' to the next destination
Nowhere to go nowhere to be
Just dippin' through the streets of Cali
We just rollin' we just strollin'
We just running to the next destination
Nowhere to go nowhere to be
Just an everyday thing for OPM and me

Southbound on the 101
Everyday livin' life for fun
Right on right on
Till the break of dawn
Till the sun comes up or the wheels fall off
Make it bounce make it hop but don't ever stop
Drop top back in the Coupe Deville
Headin' for the sun

We just rollin' we just strollin'
We just groovin' to the next destination
Nowhere to go nowhere to be
Just dippin' through the streets of Cali
We just rollin' we just strollin'
We just running to the next destination
Nowhere to go nowhere to be
Just an everyday thing for OPM and me
