

# Now I'm Following You (part II)

## Madonna

Let's dance, you can do a little two-step

I'll go anywhere that you step to, 'cause I'm following you

My feet might be falling out of rhythm

Don't know what I'm doing with them, but I know I'm following you  
Unlikely as it is to me, on the floor with  
two left feet

Let's boogie woogie till our hearts skip a beat, but who's counting?

Encore, once again around the dance floor

Romance is in the picture too, now I'm following you  
Unlikely as it is to me, on the floor with two left feet

Let's boogie woogie till our hearts skip a beat, but who's counting?

Encore, once again around the dance floor

Romance is in the picture too, now I'm following you
