Slow Motion (Single Version)

Panda Bear

So they say practice makes you perfect
So they say you can't touch me oh no
So they say that can happen
So they say better safe than sorryThat's what they always say
And when I swore it's down
It's clear just how
It's what they don't say
That's what counts
Deep down (what counts)
Step off step outSo they say practice makes you perfect
So they say you can't touch me oh no
So they say that can happen
So they say better safe than sorryThat's what they always say
And when I swore it's down
It's clear just how
It's what they don't say
That's what counts
It's counting
And be sure it counts
