

Liars One, Believers Zero

Bill Anderson

Hi honey, I'm workin' late again tonight
Yeah, I just called so you'd know
Liars one, believers zeroHello baby, can I buy you a drink?
Am I married? Heavens, no
Liars two, believers zeroI see the look in her eyes
And I know that she believes
Before the night is over
She'll give herself to meI'll hold her close and I'll kiss her lips
Tell her I love her so
Liars three, believers zeroHey honey, I'm home
I had to work all night
With the job like mine that's how it goes
Liars four, believers zeroBut wait she's not here
She's gone with all her things
She found she couldn't beat me
So she started her own gameI've checked the house and I've called her friends
Where she's gone, nobody knows
Believers one, liars zero
Believers one, liars zero
