Colourful

Virginia To Vegas

Something new that you started inside of me
You light me up, I feel the fire burning
You take control, you want to get away
Summer pride and just you and me
In my t-shirt, she's a beauty queen
Don't need no make up, she's my everything
Tonight, she asks what you think of me
Lay back, honestly

Your blue eyes look at me
Your blonde hair covers me
Your red lips make you alive
So colourful, so beautiful
My whole world was black and white
I can't wait to do it right
Your blue eyes making lives colourful
So beautiful

Something real that I can't bare to lose
Your my diamond I finally found you
I was searching all of my life
The I stumbled in the rough and you were mine
Now making me feel like I'm in clouds
Never know love was this loud
Dancing all night to the bass drum
Singing at the top of my lungs

Your blue eyes look at me
Your blonde hair covers me
Your red lips make you alive
So colourful, so beautiful
My whole world was black and white
I can't wait to do it right
Your blue eyes making lives colourful
So beautiful

So colourful, so beautiful

Your blue eyes look at me
Your blonde hair covers me

Your red lips make you alive
So colourful, so beautiful
My whole world was black and white
I can't wait to do it right
Your blue eyes making lives colourful
So beautiful

So colourful, so beautiful

Your blue eyes making lives colourful
So beautiful
