

# Dark Corners & Mountain Tops

## Cut Copy

Hey sun when the morning comes  
End the night, keeps from seeing you  
Now you take your time to make things shine  
Warm and gold, but remind me to say to you Without you, I wouldn't get far  
Whatever you do, hope you remember  
Without you, I wouldn't get far  
Oh, love you best Hey sun when the morning comes  
End the night, keeps from seeing you  
Now you take your time to make things shine  
Warm and gold, but remind me to say to you Without you, I wouldn't get far  
Whatever you do, hope you remember  
Without you, I wouldn't get far  
Oh, love you best Without you, I wouldn't get far  
Whatever you do, hope you remember  
Without you, I wouldn't get far  
Oh, love you best
