Mirror

Pepper

I bet you like your money more than you
I bet you plastic is always approved
You got so much at anytime you want
You want so much, you forget what you want
Are you a product of a spoiled youth
Is the subject of your past taboo
Maybe your just occupied with wealth
Maybe I'm just talking to myself
Do you listen or only talk?
Well, I hope you think about that
Just a little more, baby
Do you open doors or only knock?
Well, I hope you think about it
Just a little more, baby
Can't you see me here how I've been?
Locked up inside your mirror
Maybe you'd see clearer
If you looked at something else
I wish you were here with me
Step back away from the mirror
Maybe you'd see clearer
If you looked at something else
The latest fashion crumpled on the floor
Your phone I ringing bit you press ignore
You keep the morning at a distance please
The fun last might has got no memories
Time to motivate get out the sack
And pour a cup and watch the steam relax
Up in the high rise looking down on me
As I walk around the empty streets
Do you listen or only talk?
Well, I hope you think about that
Just a little more, baby
Do you open doors or only knock?
Well, I hope you think about it
Just a little more, baby
Can't you see me here how I've been?
Locked up inside your mirror
Maybe you'd see clearer

If you looked at something else
I wish you were here with me
Step back away from the mirror
Maybe you'd see clearer
If you looked at something else
