

Do You Love Me

Carlton Rara

I love to see your smile
When your face is the light
I love to see the light
Like a sparkle in your eyes
I love to see your eyes
Like a light in your smile
I love to see your face
When your eyes are in space I love to see the natural
Curls in your hair
The color of your skin
The lines of your chin
I love to see your ears
I love to see your happy tears
I love to hear you sigh
Right after you cry Do you love me?
I'm asking you
Do you love me - why?
Because I love you Do you love me?
I'm asking you
Do I love you?
I'd say I do I love to put my hand
On your breast when you rest
I love to taste your belly
Like a little piece of jelly
I love to see you shake
That little piece a cake
I love to have fun
When lying in the sun I love to see you hip
I love to see you hop
I love to see you trip
I love to see you pop
I love to see your smile
When you come to pick me up
I love to kiss you hi
Better than say goodbye I love to walk with you
And nobody else but you
I love to put my hand
In your hand when we stand
In the middle of nowhere

I love you here I love you there
Anywhere I don't care
As long as you are there I love to watch your feet
Over the blanket when you sleep
I love to feel your heat
I love to hear your beat
I love when you say
There is no other man
No other man for you
To say I love you Do you love me?
I'm asking you
Do you love me - why?
Because I love you Do you love me?
I'm asking you
Do I love you?
I'd say I do
