Put out the Fire

[Jake Bugg](#)

When you try to get too close
In your flammable clothes
Step to the flames
But it isn't a taste
Leave it to the rain
Don't put out the fire
Put out the fire
Traveling long around
Panicking as the sounds
Moving really fast
So don't put out the fire
Put out the firePut out the fireWhen you're trynna be so smart
When the forest ain't so dark
Flames cut through the trees
Grow with the breeze
You wake up on your runny
But you'd never put out the fire
Put out the fire
It will catch real soon
And take you to your (une
It's closing in quick
So you better put out the fire
Put out the firePut out the fire
