

# Walking On Water

## Avant

Thought that I'd figured out a woman  
But what I learned, it don't amount to nothing  
Did everything I knew by the book  
But it just didn't work I figured happy ever after wasn't  
Wasn't in the plans for me  
Had just about given up on love  
'Til you came around and showed me exactly what it was I finally found someone  
A girl I can love forever  
Never thought it would happen for me  
Feels like I'm walking on water, walking on water When I'm with you  
Impossible is easy to do  
Never thought it would happen for me  
With you I'm walking on water, walking on water Nothing seemed to matter much without you  
My life has changed, another song about you  
And even if I try to go back  
No, it just wouldn't work, oh Waking up beside you, am I dreaming?  
It feels so unreal to me  
Just like the heavens opened up  
It took a while but I've got my angel from above Finally found someone  
A girl I can love forever  
Never thought it would happen for me  
Feels like I'm walking on water, walking on water When I'm with you  
Impossible is easy to do  
Never thought it would happen for me  
With you I'm walking on water, walking on water Never knew that true love could be  
What I always heard of  
The closest thing to perfection  
You gave me a reason to believe  
That I can do anything 'cause I finally found someone, yes  
A girl I can love forever  
Never thought it could happen to me  
Feels like I'm walking on water When I'm with you, yeah  
It's easy to do  
Now I believe 'cause I'm walking on water  
You got me walking
