

What Would Al Pacino Do?

Doug Crawford

CHORUS

Winter cold & Money gets slow when drought comes
Will today be last Never knowing the out come
I'm a Hot cannon stay ready to let loose
But don't dare blame it on my drug & alcohol abuse
Pardon my manors In advance u must please Excuse
If that seem that Rude
I might forget my finger to use
Trying Come up with plan that's so Inconceivable
Got me thinking deep down what would al Pacino doTheres great music drug habits produce cocaine with apple
juice
That's what all my favorite rappers do
I'm on some shit they don't condone in Texas
Since the party don't stop we Retry for breakfast
They told Reach for the sky
Each tries more perfected 5
Spent a lil more time every lines getting Dissected
The best part of it all none of it was ever Expected
Now I Rightfully collect the respect that I Neglected
Competition yelling truce waving the white flag
Standing on blood & sand best Friend going home body bags
No mans unbeatable any day I might die
They say I'm To slick to be caught in white lie
Can't put my finger on the word I gotta urge to satisfy
Love is for the birds &To; busy Creating another alibis
I don't waste any time I don't got time to waste
You wanna battle for the throne
Just text me the time & place fuckerCHORUS
Winter cold & Money gets slow when drought comes
Will today be last Never knowing the out come
I'm a Hot cannon stay ready to let loose
But don't dare blame it on my drug & alcohol abuse
Pardon my manors In advance u must please Excuse
If that seem that Rude
I might forget my finger to use
Trying Come up with plan that's so Inconceivable
Got me thinking deep down what would al Pacino doIf U think u seen worst u ain't seen nothing yet
Nightmares are real &
Got me waking up in cold sweats

Ain't been having good luck switched from blonds to Brunettes
Whether u love me or hate me in just to hard to forget
Never hide my flaws I wear it like a badge of armor
That way no one can use it against me
It's harder to live in privacy fans around every corner
I was warned before should've listened to biggie
In a league of my own an
Extraordinary gentleman
Stay 10 steps ahead
Still a prick awithout my medicine
Don't make
Mistake of Being Curious
How many rappers gotta die for Making me Furious
Until there taking me
Serious
I've gotten right where I want em All my adversaries qtrembling
Stomach unSettling
Something Resembling embezzling
Married to the game without a weeding ring
Cause Were both against leaving evidence on anything
