Sing It

Josh Wilson

Sing it- Josh WilsonAll the words in all the world could never say enough
All the notes in my in my guitar could never play enoughBut you placed this song inside my heart and all I know to do for you is sing it
No its not much but its what I've got and all I know to do for you is sing itI have tried so hard to find the perfect melody
Nothing I could ever write comes close to your gloryBut you placed this song inside my heart and all I know to do for you is sing it
No its not much but its what I've got and all I know to do for you is sing itahhhhh
