

Sing It

Josh Wilson

Sing it- Josh Wilson
All the words in all the world could never say enough
All the notes in my in my guitar could never play enough
But you placed this song inside my heart and all I
know to do for you is sing it
No its not much but its what I've got and all I know to do for you is sing it
I have tried so hard to find the perfect
melody
Nothing I could ever write comes close to your glory
But you placed this song inside my heart and all I know to
do for you is sing it
No its not much but its what I've got and all I know to do for you is sing it
ahhhhhh
