You're What I Look For (2012 - Remaster)

Glass Tiger

When you walked into the room
I saw their faces;
You made it seem like time
Was standing still;
And I felt fascination
Though I knew you just casually.
So I slowly made my way
To where you were standing;
The bounds were gathered near
I didn't care
You sensed desperation
My heart gave me away
And then you said:
CHORUS:
You're what I look for,
Je pense que je t'adore
You what I look for ...
Lately
When our eyes met in conversation
I tried to smile;
You looked the other way
You make situations;
Seem like love affairs
And then you said.
CHORUS:
BRIDGE:
Now it's over
CHORUS:
