Lethal Awakening

Shaman

Prepare to engage!!
Some Visions can awake you...
So let it be, let the strings be played
Foresen and recreated,while this monster consumes you...
No delay,for is done, unless your bell has tolled...When fate calls out your name...
Self-awareness will save you!!
So let it be, let the strings be played...
Be Driven by thid rate,as this monster inside you...However,my eyes are gazed!
No matter what kinds of behave...
This shell won't out live me, no!!!!And I Hear Thunder and Rain...
This fear can roar but it won't lead the way!!!
My Compass points north and comes from inside...
Lethal ot not, I am Awake!!!All that I fell deep inside is in vain
Unless all my actions according to it
There's no remorse when you're Friends with the past
When we're awake...All Make sense!And I Hear Thunder and Rain...
This fear can roar but it won't lead the way!!!
My Compass points north and comes from inside...
I am awake!!!
Under Fire and Rain...
All we have to be is awake!
