

Keep Holding On

Falling in Reverse

I thought I had myself all figured out
But I've spent my whole life holding myself down
And it seems to be that sort of thing I keep doing constantly
Addicted to the pain I cause myself My head is floating somewhere in the clouds
While I'm paid to entertain a lively crowd
They sing my songs and feel my pain cause pain is what creates my fame
A vicious cycle someday I'll get out I can't believe I'm standing here at all, I can't believe I made it this far
On my way with a smile on my face to the top and I'm not falling off
And all I need is a microphone, I'll sing about the things that have been hurting me
It's safe to say all the kids I relate to their lives so just keep holding on It's hard enough try walking in my shoes
To be picked on by my peers to much abuse
And I'm tired of not fitting in
True friends is my final wish, just let me be myself and make it through I have tried so hard to be a better soul
I have worked so hard at making myself whole
And through it all my better years are still ahead my mind is clear
Just trust me when I say I'm in control I can't believe I'm standing here at all, I can't believe I made it this far
On my way with a smile on my face to the top and I'm not falling off
And all I need is a microphone, I'll sing about the things that have been hurting me
It's safe to say all the kids I relate to their lives so just keep holding on I believe I'm just like you
I believe I'll make it through
It's hard to see at times like this,
But I'm not giving in, but I'm not giving in
[x2] And all I need is a microphone, I'll sing about the things that have been hurting me
It's safe to say all the kids I relate to their lives so just keep holding on I can't believe I'm standing here at all, I
can't believe I made it this far
On my way with a smile on my face to the top and I'm not falling off
And all I need is a microphone, I'll sing about the things that have been hurting me
It's safe to say all the kids I relate to their lives so just keep holding on
