Never Dream Alone

Ashlee Simpson

In the cold, in the cold winter
Under the full moon like a midnight sun
In the cold winter
Underneath the stars
Fall asleep with my hand on your heart
I won't let it skip a beat
In the cold, in the cold winter
Hey love, I won't hurt you
Night will come and go
I won't hurt you
You'll never dream alone
Dreams, dreams in a vivid slumber
We're connected
When I hold my breath

You're the only one who knows how to wake me
And underneath the stars
Fall asleep with your hand on my heart
You won't let it skip a beat
In the cold, in the cold, cold winter
Hey love, I won't hurt you
Nights will come and go
I won't hurt you
You'll never dream alone
I won't hurt you
Nights will come and go
I won't hurt you
You'll never dream alone
