Anytime You Need a Friend

Beu Sisters

When you're sad
When you're feeling low
When you're hurt
And don't know where to go
Think of me, there I'll be
Any time you need a friendWhen you're down
And your luck runs out
Or if you're in trouble or in doubt
It's okay, turn my way
Any time you need a friendWhen you're scared
I will stay with you
When you feel you're falling
I'll lift youWhen you're heart breaks
I'll ease your aches
Whatever it takes, I'm in
Any time you need a friendAll our lives
Anywhere we are
Just reach out
I'll never be too farCome what may
There I'll stay
Any time you need a friendWhen you're scared
I will stay with you
When you feel you're falling
I'll lift youWhen you're heart breaks
I'll ease your aches
Whatever it takes, I'm in
Any time you need a friendWhen you need a friend
Come what may
There I'll stay
Now until the very endAny time, any time you need a friend
Whatever it takes
Any time, anywhere
Any time you need a friend
