

# Ireland's Turning Country

[Jim Devine](#)

Oh Ireland's turning country, that's the word out on the street  
And everywhere you go toes are tapping to the beat  
All across the nation, when the weekend comes around  
They're out there country jiving, in the cities and the towns  
Now when the band begins to play everybody hits  
the floor

When the music's over they all shout for more  
Oh Ireland's turning country everywhere you go  
From Cork right up to Donegal from Dublin to Mayo  
Me and my band gonna cross the land we're putting on a show  
People say it's here to stay, Ireland's turning country  
I met a pretty little jiving queen at the country dance one night  
I asked her on the floor and we danced all through the night  
When we went slow dancing she held me so tight  
Now we've been together since she danced into my life  
Now when the band begins to play everybody hits the  
floor

When the music's over they all shout for more  
Oh Ireland's turning country everywhere you go  
From Cork right up to Donegal from Dublin to Mayo  
Me and my band gonna cross the land we're putting on a show  
People say it's here to stay, Ireland's turning country  
Now when the band begins to play everybody hits the floor  
When the music's over they all shout for more  
Ireland's turning country everywhere you go  
From Cork right up to Donegal from Dublin to Mayo  
Me and my band gonna cross the land we're putting on a show  
People say it's here to stay, Ireland's turning country  
Oh Ireland's turning country everywhere you go  
From Cork right up to Donegal from Dublin to Mayo  
Me and my band gonna cross the land we're putting on a show  
People say it's here to stay, Ireland's turning country  
And I do believe it's here to stay, Ireland's turning country
