

Mesmerized

The Bangles

The moment you came into view
Everything went out of focus cept for you
From ordinary to sublime
And all the world went in and out of timeLost in the reverie
Taken by surprise
You had me so completely mesmerizedOnly a fool would come between
A man and something sacred and serene
Im the first one to admit
That Im a fool and not ashamed of itCaught by the daring look
Of longing in your eyes
You got me so completely mesmerizedIts only here for a night
Its only true
If you believe its alright
Its alright its alright
Its only us for the night
Me and you
And I believe its alright
Its alright
Its alrightThe morning comes with no regret
And I believe the proper etiquette
Kiss me in silence slip away
When day becomes the night becomes the dayI would have walked away
Behaving otherwise
But you had me so completely mesmerizedIts only here for the night
Its only true
If you believe its alright
Its alright, its alright
Its only us for the night
Me and you
And I believe its alright
Its alright
