Let It All Change

Lighthouse Family

I watch the sun go down when there's nothin' in the way
I love the moonlight on the Mediterranean
Sometimes we catch a glimpse of perfect happiness
So we don't treat it like a heavy thing and it all goes up in smokeLet it all change
You know that some things worth hanging onto, anyway
Let it all change
You know it's strong after everything we've been through, anywayWe don't go 'round pretending everything is great
It ain't no secret, I think it's 'cause we're such good friends
Sometimes we catch a glimpse of perfect happiness
It's when you try to have everything that it all goes up in smokeLet it all change
You know that some things worth hanging onto, anyway
Let it all change
You know it's strong after everything we've been through, anywayIt's when you try to have everything that it all goes up in smokeLet it all change
You know that some things worth hanging onto, anyway
Let it all change
You know it's strong after everything we've been through, anywayLet it all change
You know that some things worth hanging onto, anyway
Let it all change
You know it's strong after everything we've been through, anywayLet it all change
Let it all change
Let it all change
