lester

Bakers at Dawn

Saw my life go flashin' past
In the eyes of a faithful friend
Four legs, four lives
And the screechin' tyres never seem to end
I will change if Lester lives
Not mess him 'round just 'cause I own him
He was nearly wiped away
But he had good luck and strong bones
You make me clench my teeth
Us humans ain't got dignity
Eat my plants and steal my things
You're the head of security
I will change if Lester lives
Not mess him 'round just 'cause I own him
He was nearly wiped away
But he had good luck and strong bones
Inside and behind him
I will change if Lester lives
Not mess him 'round just 'cause I own him
