

# Reach Out

## Music Go Music

Reach out with all your mind

To the sound  
Of a dirge  
From the mist  
I emerge  
From the gloom  
From the grave  
Leading us  
Into the day

If you're lonely reach out  
Reach for me

There is a fire in me  
I burn with empathy  
Dear, let compassion reign  
Call out my name  
And face the flame

In the black  
Of the night  
When the dark  
Steals your sight  
Let my voice  
Be your guide  
Let my love  
Be your light

And we shout in the night  
Reach for me

There is a fire in me  
I burn with empathy  
Dear, let compassion reign  
Call out my name  
And face the flame

Reach out with all your mind  
Reach out beyond the blind

That light surrounding you  
And starting new  
Would look so true

Let my voice  
Be your guide  
Let my love  
Be your light

And reach out in the night  
Reach for me

There is a fire in me  
I burn with empathy  
Dear, let compassion reign  
Call out my name  
And face the flame

Reach out with all your mind  
Reach out beyond the blind  
That light surrounding you  
And starting new  
Would look so true

Reach out with all your mind  
Reach out beyond the blind  
That light surrounding you  
And starting new  
Would look so true

There is a fire in me  
I burn with empathy  
Dear, let compassion reign  
Call out my name  
And face the flame

There is a fire in me  
I burn with empathy  
Dear, let compassion reign  
Call out my name  
And face the flame
