

If You Will Have Me

Kaiser Chiefs

I don't know if you'll hear this song
And if you do you might not know
That is a tribute to the man who made
Our world go around I don't know if you'll hear this song
But if you do you're not alone
So dance while you can and cry while you can
Let the world go around And if you will have me
I want to be the son that I was
And if you will have me
I want to be the boy from the photograph I miss the daily phone call
And I miss the good advice
And my brother misses everything
He's just looking for you It's the longest tough goodbye
So many lows and no real highs
Seems so little we can do
Is see glimpses of you And if you will have me
I want to be the son that I was
And if you will have me
I want to be the boy from the photograph Can't fight, life
So dance while you can You can't fight, life
So just dance while you can And if you will have me
I want to be the son that I was
And if you will have me
I want to be the boy from the photograph And if you will have me
I want to be the son that I was
And if you will have me
I want to be the boy from the photograph
