See You in the Next One (Have a Good Time)

The Verve

How hard is it for me to wait for you

See you in the next one have a good time

Could be a lifetime before I see you again

See you in the next one have a good timeEyes they open wide

Eyes they open wide

I like the way

It was hate the way it is nowLack of time and a wasted week end

You wore your lies like a filmstarEyes they open wide

Eyes they open wide

I like the way it was

Hate the way it is now
