

Police

Fucked Up

Hide from the cops they broke all our locks now we got to run the cops aint
No fun to hide in the trash cops show me a badge now i am in jail i dont have no bail on the streets the police in
my house.

The police gotta run the police they gotta gun the police a shitty band the police i aint no fan the police.
Sleeping on a bench the punch me in the chest just trying to get some sleep they throw me in a jeep try to sel me
drugs listen to me with the bugs in a pizza van i aint no fucking fan on his face a mustache they got their hand in
my stash his ugly face i want to bash the pop the fasc in my head the police on my bed the police i cant stand the
police in this fucking city.
