

# I've Been Waiting For You

[Dannii Minogue](#)

I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you

Place you on a pedestal

My discovery, I pray

Angel with a dirty face

And a natural love

All my senses sway

Let me find you

Let me take you

Let me show you

This love is the only one

That never hurts

I pray

Somebody to shelter me

To follow me

Like a non-stop game

Let me find you

Let me take you

Let me show you

All my patience

All my trouble

All my passion

I've been waiting for you

I've been waiting for you

I've been waiting for you

I've been waiting for you

Diving in the mystery

I wet my feet

I pray

You kingdom enchants me

Like a memory

And your eyes will sing

Let me find you

Let me take you

Let me show you

All my patience

All my trouble  
All my passion  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you

Let me find you

Let me take you

Let me show you

Let me find you

Let me take you

Let me show you

Let me take you

Let me take you

I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you
