

# Down On My Luck

[Vic Mensa](#)

[Hook]

When I get down on my luck I hide behind my eyes in Hollywood  
They saying what you know, but who you know  
You need to know someone or know no one  
When I get down on my luck  
I roll one up and roll around all by my lonesome  
Lost some years, I used to know, I know my faith like bullets in a shotgun[Verse 1]  
She loves to dream, living in and off and out her mind  
To space and time, she taste the line, the lies, the life  
Of where you might just say she stays to go nowhere  
Midnight scenes from an old romantic movie  
Usually you'll be there today I say what's different  
I can take you if you're wondering, if you wanna go there  
No, no, no, no  
Love, love, love, love[Bridge]  
Do you think about things you say you don't?  
Baby, I know you do, why-why is she over-clue?  
Ooh look at you, look at you  
Do you think things to stoop who you know?  
Cause I told you too, why you listen to 'em?  
Hands up, middle finger to 'em  
Fuck that, get down[Hook]When I get down on my luck, when I get down on my luck  
When I get down on my luck, when I get down on my luck  
Down on my luck, down on my luck[Bridge]
