

Despair

Burning Image

When your lights start dimming, do you feel despair?
You can hear us calling, but you don't know where
Don't you want to be with us?
And we have room for you
Just go back to bed now
Cause we know what to doAhhhhh.....There is something down there
Don't you care what I say?
I can hear them calling "Can you come out and play?"
We want you here with us
And there's so much to see
And we can make you happy
And we can set you freeAhhhhhhhh.....We are in control now and you have lost your say
You will be like us now and now you're on your way
So, your old life has ended and we have plans for you
Take a final look now before your life is throughAhhhhhh.....
