

Outlaw

Riot

Down below the border
He robbed a bank in Mexico
Half crazed on tequila
He had a, half million in gold
There's thunder in the ground
And he could hear the sound
A showdown in the distance
They're gonna ride him down
Bet your life on the silver ball
Spin it 'round the wheel
Will it land on the black or the red?
The outlaw's got no deal
When he gambled with women
He kept an ace up his sleeve
He always got what he came for
He never played it clean
Then he was blinded by passion
Playing a game of fools
Thought she was lucky
Thought she was his best bet
Guess you find out when you lose
Bet your life on the silver ball
Spin it 'round the wheel
Will it land on the black or the red?
The outlaw's got no deal
Bet your life on the silver ball
Spin it 'round the wheel
Will it land on the black or the red?
The outlaw's got no deal
Bet your life on the silver ball
Spin it, 'round the wheel
Will it land on the black or the red?
The outlaw's got no deal
Bet your life on the silver ball
Spin it 'round the wheel
Will it land on the black or the red?
The outlaw's got no deal
