Right On

OMC

Oh, do you remember
When we were young?
We just had funPedal to the metal, shine into the steel
Sitting up front, Elivisi by the wheel
Putting out of Island Bay, weather looking fine
Flick the switch, needle twitch, FM to the dialBuddy Toledo singing to the songs
Watching all the Ps and Qs, nothing can go wrong
Dino Valentino and his lady, flashes cash as the deals go by
So good to be alive, right on, right onOh, do you remember
When we were young?
We just had funPieces to the puzzle, music is the word
Frankos on the show, flying out the bird
Somersaults and figure eights, breaking all the rules
Pushing all the pushers, The King of the New SchoolBuddy Toledo fronting on the stage
Pacifies the masses with a smile and a wave
Dino Valentino and his lady counts the cash as deal goes by
So good to be alive, right on, right onOh, do you remember
When we were young?
We just had funOh, do you remember
When we were young?
We just had funOh, do you remember
When we were young?
We just had funOh, do you remember
When we were young?
We just had funOh, do you remember
When we were young?
We just had fun
