Jah Guide

Heavy Roots

Here though I trod through this valley
I will fear no evil
Here though I trod through this valley
I will fear no evil

'Cause I know
Jah guide, Jah guide, Jah guide
Jah guide, Jah guide I through this valley
And I know he will
When I'm trodding through this valley
I know he will

Though my enemies fight me everyday
I will fear no evil
Though my enemies set traps in my way
Still I will fear no evil

'Cause Jah guide, Jah guide, Jah guide
Jah guide, Jah guide I through this valley
And I know he will
When I'm trodding through this valley
I know he will

Many pretty workers dig pits every day
But I don't fear no evil
Oh the pretty workers fight me everyday
Still I will fear no evil

'Cause Jah guide, Jah guide, Jah guide
Jah guide, Jah guide I through this valley
And I know he will
When I'm trodding through this valley
I know he will

Pestilence lurks in dark places
And I fear no evil
Destruction walk with smiling faces
Still I will fear no evil

'Cause Jah guide, Jah guide, Jah guide

Jah guide, Jah guide I through this valley
And I know he will
When I'm trodding through this valley
I know he will

When I'm walking the streets, I know he will
When I'm smoking my pipe, I know he will
When I'm trodding the earth, I know he will
When I'm driving the road, I know he will
When they dig pits in my way, I know he will
When they fight me everyday, I know he will
When they try to keep me down, I know he will
