

Naked

Reef

Sing with me, that's where I'm at
Hoot with me, I'd get into that
If you know where I'm at
I would get a kick from that
Muddy face, bloody hand
Naked we dance on our clothes So will you come with me?
I'll take you away Spin with me, that's what I feel
Open your arms, release from within
If you know where I'm at
I would get a kick from that
Come the dark, light a fire
In the rain we raise our heads So will you come with me?
I'll blow you away
