breathe

A Cutthroat Kiss

Dont say goodbye
is what I begged that night
And every tear you cry is what makes me die
So dont let me die, I wont let you cry tonightBreathe this life away from me
A breath away will always be
How you you and me will always be
Take my last breath its your to keepAnd when I fall from the rooftops above
I'll spread warmth to the ground with my love and my blood
And no one will notice that Im gone
But deep down inside, I hoped that I was wrongBreathe this life away from me
A breath away will always be
How you you and me will always be
Take my last breath its your to keepWith a gun in her hand shes my shooting star...Breathe this life away from me
A breath away will always be
How you you and me will always be
Take my last breath its your to keep
