Cut 'em Off

Dizzee Rascal

I socialize in [Incomprehensible]
I socialize in [Incomprehensible]
I socialize in [Incomprehensible]
Now cut 'em off
Review the situation, take part, take over
Review the situation, take part, take over
Review the situation, take part, take over
Review the situation, take part, take over
My name is Rasket, listen to my flow
I socialize in Hackney and Bow
I wear my trousers ridiculously low
I love females, money and creeps
I'm kind of street wise somethin' that you should know
You're not a bad boy, you're puttin' on a show
You talking bad, creepin' up on Rusko
So keep creep crawling 'cause I'm taking bigger steps
My name is Rasket, listen to my slang
I socialize with the crew and the gang
Road youths on the streets is where I came
I'll make you collapse, leave gaps in your face
You're in your neighborhood thinkin' that you're
You got your people thinkin' that I'm done
But if you try it, i'll make the ratchet bang
You could never outplay me I'm a ace
I'm not a smoker but I blaze a lot
Sittin' round puffin', waste my days a lot
Although I shouldn't waste time 'cause I ain't got a lot
I'm just lazy
I'm not a ratchet but I bang a lot
Got a carpal beanies that I slam a lot
I'll make her happy with my fingers, I'm a handle lot
I'm just crazy
Socialize, negotiate and cut 'em off, we cut 'em off
Socialize, negotiate and cut 'em off
Review the situation, take part, take over
Review the situation, take part, take over
Review the situation, take part, take over
Review the situation, take part, take over
There you go again talkin' like a diff

Like I can't find out where you live
Kick off your latch, I don't even need a ratch
My butterfly leave you lookin' like a siff
I've met bad boys from every post code
You could never talk to me about God
Stop dreaming, I'm your worst nightmare
I'm Freddie Kruger, make the luger explode
Now there you go again talkin' like a star
Like I can't find out where you park
Kick off your door, I ain't got a four four
I'll have to settle for a long metal bar
I've met bad boys from every rough ends
You could never talk to me about skins
You talk tough, but you ain't sayin' much
I'll chop you up and share you right between your friends
Now some love me, some do the opposite
If you filter in to me, please get on with it
Don't know why you feel the need to talk to birds
But talk is dangerous, be careful with your words
And just remember this, I am you
So if you think you're real, do what you gotta do
On the level, you're just challengin' yourself
So if you're feelin' brave, go ahead and hang yourself
Socialize, negotiate and cut 'em off, we cut 'em off
Socialize, negotiate and cut 'em off
Review the situation, take part, take over
Review the situation, take part, take over
Review the situation, take part, take over
Review the situation, take part, take over
We cut 'em off, we cut 'em off
Review the situation, take part and take over
Nothin' knows
We cut 'em off, we cut 'em off, we cut 'em off, we cut 'em off
Review the situation, take part, take over
Review the situation, take part, take over
Review the situation, take part, take over
Review the situation, take part, take over
Cut 'em
