Break

Heart

The dust is gatherin' where I stand
Now I know there's a crack in this plan
After a while there just ain't no more magic, man
I got a need, I got to know
Give me the truth, who is runnin' my show?
Tell them I'm sorry but I just had to goMy patience ran out, I gotta run
Out of a habit that used to be funI just wanna break
Shake it, shake it, shake it off
Take off, break it off
Break, break
Break me outta here
You know what it's about
Now let me out, get me out
Break, break, break, break, breakI got no more respect for the big man
Pulling me down to what he understands
You know he can't get his mind around no bigger plans
No one is to tie me to this machine
Givin' me Formula force car dreams
Gettin' more hold on me than it seemsMy patience ran out, I gotta run
Out of a habit that used to be funI just gotta break
Shake it, shake it, shake it off
Take off, break it off
Break, break
Break me out of here
You know what it's about
Now let me out, get me out
Break, break, break, breakI just gotta break
Shake it, shake it, shake it off
Take off, break it off
Break, break
Break me out of here
You know what it's about
Now let me out, get me out
Break, breakI just gotta break
Shake it, shake it, shake it off
Take off, break it off
Break, break
Break me out of here
You know what it's about

Now let me out, get me out
Break, break, break, break, break
