

What It Feels Like (Quentin Harris Club Mix)

Joi Cardwell

Light of the world
Let me show you what it feels like
To be me
To be free Times gone
And past has conclusions
My life like yours
An illusion
Of things the way
We only see If theres a chance I can make it
You bet your ass Im a take it
Out theres a life waiting just for me I show you what its like to be free
I ll tell you what its like to be me
I ll show you what its like to be me (free)
It feels good yeah! What it feels like (4x) Some say that lifes what you make it
Sometime theres a hand you should take it
And where it leads there you will be
Come now life is really a dream
Let go youll see what I mean
Out theres a reason to believe
Believe Ill show you what its like to be me
Ill show you what its like to be free
Ill tell you what its like to be me
It feels good yeah! What it feels like (4x) Light of the world
Come and set my spirit free
Take me beyond the limits
And let me find release
Well Im gonna find
Oh that peace of mind
Reason why
Im alive
To be Free Oh, What it feels like
What it feels like
