

Feel Good

Urban Mystic

Y'all I wanna know if I can do my thang
I wanna let 'em know how I'm feeling today
I feel good
Let me tell you something

It's a...
Great day to be alive
The sun shine through the rainy skies
You can tell by the look in my eyes
I still grind from a 9 to 5

Come along if you know how it feels to feel good, yea
Come along if you know how it feels to feel good, yea

I said it ain't...
No place like down in my soul
I feel so good
Bout to lose control
I feel good from my head to my toe
I feel good like that old rock & roll

I said it ain't...
No place like down in my soul
I feel so good
Bout to lose control
I feel good from my head to my toe
I feel good like that old rock & roll

Come along if you know how it feels to feel good, yea
Come along if you know how it feels to feel good, yea

Ooh, ooh
When you can't breathe and need a respirator
Ooh, ooh
Ooh, emotions so high they got elevated, ooh
Ooh, ooh
The way you move it do something to ya, ooh
The way you dress everybody looking, ooh
It's the best feeling all around
Ooh, ooh

Make you scream and shout
Go'on and let it out

Come along if you know how it feels to feel good, yea
Come along if you know how it feels to feel good, yea

It's a...
Great day to be alive
The sun shine through the rainy skies
You can tell by the look in my eyes
I still grind from a 9 to 5

I feel good down in my soul
I feel good down in my soul
I feel good down in my soul
I feel good down in my soul
I feel good down in my soul
I feel good down in my soul
I feel good down in my soul
I feel good down in my soul

Come along if you know how it feels to feel good, yea
Come along if you know how it feels to feel good, yea

Come along if you know how it feels to feel good, yea
Come along if you know how it feels to feel good, yea

I said it ain't...
No place like down in my soul
I feel so good
Bout to lose control
I feel good from my head to my toe
I feel good like that old rock & roll

I said it ain't...
No place like down in my soul
I feel so good
Bout to lose control
I feel good from my head to my toe
I feel good like that old rock & roll

Come along if you know how it feels to feel good, yea
Come along if you know how it feels to feel good, yea

Come along if you know how it feels to feel good, yea

Come along if you know how it feels to feel good, yea

I feel good

I feel good

I feel good

I feel good
