

Deep In the Heart

U2

Angel, every thing's gonna be alright
Angel, every thing's gonna work out tonight
Thirty years old, sweet as rose
Every petal of her wafer thin Love will make you mine
Creep up from behind
Get you jumping out of your skin
Angel, it's sink or swim Deep in the heart
Deep in the heart of this place
Deep in the heart
Deep in the heart of this place Door is closed behind me now
Window is sealed to shut out the light, oh
Green as the leaves and the cure of the meadow stain
Do your work, it'll work out right Deep in the heart
Deep in the heart of this place
Deep in the heart
Deep in the heart of this place The scent of cedar, I can still see her
You can't return to the place you never left
Angel, we'll make it work out tonight
Angel, I wanna be home tonight Door is closed behind me now
Window is sealed, they shut out the light
Green as the leaves and the cure of the meadow stain
I do my work, and you'll work out right, oh, oh, oh, oh Deep in the heart of this place
Deep in the heart, deep in the heart of this place
Deep in the heart, deep in the heart of this place
