

# Ripe

## Screaming Females

[Verse 1]

I dressed up the horses, set them loose  
Sunk the needle deep and took in every drop

A violent path and inch in time

And ever my device the anchor drops[Chorus] x2

I said peel the skin raw

I said peel the skin raw

I said peel the skin raw

Pinch 'til our feeling's gone[Verse 2]

Miles of horses gallop to the edge

[?] in their mouths we try to wear

Powerful, more muscle than stiff lip

The reins [?] chains [?] I've lost my grip[Bridge]

Try with all my heart I choke, I'm ready to go

And if you're through with me then please say so

Try with all my heart I choke, I'm ready to go

And if you're through with me then please just say so[Chorus] x2[Verse 3]

You build this game to play and to pretend

You are a dark machine and I'm a cult

When engines crack when fuel lines break off

I'll save your bits and let your motor rot
